# STEFANI WEEKLY

May 14, 2021

Remember to check our website for important dates and my blog!

## Reading:

In reading we reviewed Unit 5. Make sure your child can read all of the sight words from the sight word list. They should be able to read from the Smart Start list through all of Unit 5 (the sight word list is available on our website if you need another copy). Next week we will begin Unit 6!

In writing we reviewed parts of speech and syllables.

## Teacher's Corner:

Our Unit 8 math test will be on Thursday, the 20<sup>th</sup>! A study guide came home on Thursday. This is our last unit for the year! We will now go back and review some concepts more in depth. We will continue to have daily math homework. The math homework will come home every day in your child's Daily Folder and it will have a circled "HW" so you know that is the homework that needs to be completed and returned the next day.

The Book Fair will also run next week! If you would like for your child to buy anything from the Book Fair, please send in money next week in a labeled envelope so your child can go shop!

Please continue to practice reading, writing, and math at home! We have end of the year testing coming up, along with NWEA! We want to be as prepared as possible 😊

**This Wednesday, the 19<sup>th</sup>, will be our last remote Wednesday.**

Enjoy the weekend!

## Math:

This week we learned about adding two-digit numbers by adding the tens first, then the ones, then tens and ones (ex:  $25+38=$ ,  $20+30$  is 50,  $5+8$  is 13, so  $50+13=63$ ). Please know this is just another **optional** strategy to use when adding two-digit numbers to develop a deeper understanding of what regrouping is. We continued to practice traditional regrouping. On the Unit 8 math test, your child can use any strategy they want to add two-digit numbers. I often find traditional regrouping is easiest for first graders, but your child can use whatever strategy that is the best fit for him/her!
