There will be a math test on Thursday, April 12th.
It will cover the following concepts:

- Converting mixed numbers to improper fractions
- Converting improper fractions to mixed numbers
- Adding and subtracting fractions with common denominators
- Adding and subtracting fractions with unlike denominators
- Locating and plotting improper fractions and mixed numbers on a number line
- Story problems
- Vocabulary: numerator, denominator, simplify, mixed number, improper fraction, least common multiple, greatest common factor, factor, multiple

Please use notes taken in class and graded assignments that have been sent home to study. Chapters 19 and 20 in the math book might be used as a resource as well.
Study, study, study!
